Dallas Regional Office

600 North Pearl Street, Suite 700
Dallas, Texas 75201

This document is an evaluation of this institution's record of meeting the credit needs of its entire community, including low- and moderate-income neighborhoods, consistent with safe and sound operation of the institution. This evaluation is not, nor should it be construed as, an assessment of the financial condition of this institution. The rating assigned to this institution does not represent an analysis, conclusion, or opinion of the federal financial supervisory agency concerning the safety and soundness of this financial institution.

INSTITUTION RATING

INSTITUTION'S CRA RATING: This institution is rated **Satisfactory**.

An institution in this group has a satisfactory record of helping to meet the credit needs of its assessment area, including low- and moderate-income neighborhoods, in a manner of consistent with its resources and capabilities.

The Lending Test is Satisfactory.

- The loan-to-deposit ratio is reasonable (considering seasonal variations and taking in to account lending related activities) given the institution's size, financial condition, and assessment area credit needs.
- A majority of loans and other lending related activities are in the institution's assessment areas.
- The geographic distribution of loans reflects reasonable dispersion throughout the assessment areas.
- The distribution of borrowers reflects, given the demographics of the assessment areas, reasonable penetration among individuals of different income levels (including low- and moderate- income) and businesses of different sizes.
- The institution did not receive any CRA-related complaints since the previous evaluation; therefore, this factor did not affect the rating.

The Community Development Test is rated Satisfactory

The institution's community development performance demonstrates adequate responsiveness to community development needs in its assessment areas through community development loans, qualified investments, and community development services, as appropriate, considering the institution's capacity and the need and availability of such opportunities for community development in the institution's assessment areas.

DESCRIPTION OF INSTITUTION

First Bank maintains its headquarters in McComb, Mississippi. First Southwest Corporation, also located in McComb, wholly owns the bank. The institution received a Satisfactory CRA rating at its previous February 24, 2020, Federal Deposit Insurance Corporation (FDIC) Community Reinvestment Act (CRA) Performance Evaluation, based on Intermediate Small Bank Evaluation Procedures.

The institution, which operates 14 full-service offices in Mississippi, did not open or close any offices during the review period. First Bank offers a wide variety of loan products including commercial, agricultural, home mortgage, and consumer loans. In addition, the institution offers multiple deposit products including checking, savings, money market, and certificates of deposit. Alternative banking services include internet and mobile banking, electronic bill pay, and 14 automated teller machines (ATMs) located throughout its assessment areas (AA). First Bank did not participate in any merger or acquisition activity during the review period.

As of the March 31, 2023 Report of Condition and Income, the institution reported total assets of \$583.6 million, total loans of \$335.8 million, and total deposits of \$514.8 million. As reflected in the following table, the major loan products and primary business focus include commercial loans, including commercial real estate, with 47.2 percent of the loan portfolio and home mortgage loans (1-4 Family and Multifamily) with 35.0 percent. The following table illustrates the distribution of loans within the loan portfolio.

Loan Portfolio Distribution as of 3/31/2023		
Loan Category	\$(000s)	%
Construction, Land Development, and Other Land Loans	30,821	9.2
Secured by Farmland	16,929	5.0
Secured by 1-4 Family Residential Properties	104,128	31.0
Secured by Multifamily (5 or more) Residential Properties	13,536	4.0
Secured by Nonfarm Nonresidential Properties	115,413	34.4
Total Real Estate Loans	280,827	83.6
Commercial and Industrial Loans	43,041	12.8
Agricultural Production and Other Loans to Farmers	2,229	0.7
Consumer Loans	8,483	2.5
Obligations of State and Political Subdivisions in the U.S.	1,169	0.4
Other Loans	64	0.0
Lease Financing Receivable (net of unearned income)	0	0.0
Less: Unearned Income	0	0.0
Total Loans	335,813	100.0
<i>Source: Reports of Condition and Income</i>		

Examiners did not identify any financial, legal, or other impediments that affect the bank's ability to meet its AAs' credit needs.

DESCRIPTION OF ASSESSMENT AREAS

The CRA requires each financial institution to define one or more AAs for which examiners will evaluate its CRA performance. First Bank's delineated AAs span various Metropolitan Statistical Areas (MSA) within the state of Mississippi. The three AAs are: 1) Hattiesburg MSA AA, 2) Jackson MSA AA, and 3) Mississippi Nonmetropolitan (Non-MSA) AA. Each AA conforms to CRA regulatory requirements. The following table details additional information regarding the AAs. Refer to the individual AA discussions for more detailed information.

Description of Assessment Areas			
Assessment Area	Counties in Assessment Area	# of CTs	# of Branches
Hattiesburg MSA	Forest and Lamar	38	2
Jackson MSA	Madison	26	1
Mississippi Non-MSA	Pike, Amite, Lawrence, and Lincoln	28	11
<i>Source: Bank Data</i>			

SCOPE OF EVALUATION

General Information

This evaluation covers the period from February 24, 2020, to June 8, 2023, the date of the previous evaluation to this evaluation's date. To assess performance, examiners applied Interagency Intermediate Small Institution Evaluation Procedures, which include the Lending Test and the Community Development Test. The Appendix lists the applicable test's criteria.

The Mississippi Non-MSA AA comprises the largest percentage of deposits, and branches as shown in the table below, while the Hattiesburg MSA AA produces the largest percentage of lending. After accounting for the scope of the previous evaluation and relevant guidance, examiners applied full-scope procedures and placed greater emphasis on performance within the Mississippi Non-MSA AA. The Jackson MSA AA also received a review using full-scope procedures, while the Hattiesburg MSA AA received a review using limited-scope procedures. Due to the limited levels of lending in the area, the Jackson MSA AA received limited weight when arriving at overall conclusions.

Assessment Area Breakdown of Loans, Deposits, and Branches						
Assessment Area	Loans		Deposits		Branches	
	\$(000s)	%	\$(000s)	%	#	%
Hattiesburg MSA	39,717	53.8	47,956	9.1	2	14.3
Jackson MSA	7,017	9.5	13,447	2.6	1	7.1
Mississippi Non-MSA	27,126	36.7	464,825	88.3	11	78.6
Total	73,860	100.0	526,228	100.0	14	100.0

Activities Reviewed

CRA Intermediate Small Institution Evaluation Procedures require examiners to determine the bank's major product lines for review under the Lending Test. As an initial matter, examiners may select from among the same loan categories used for CRA Large Institution evaluations: home mortgage, small business, small farm, and consumer loans. The following table shows the bank's lending activity for 2022.

Loans Originated or Purchased				
Loan Category	\$(000s)	%	#	%
Construction and Land Development	43,438	21.3	147	11.9
Secured by Farmland	13,796	6.8	41	3.3
Secured by 1-4 Family Residential Properties	37,676	18.5	277	22.3
Multi-Family (5 or more) Residential Properties	2,927	1.4	4	0.3
Commercial Real Estate Loans	64,107	31.4	97	7.8
Commercial and Industrial Loans	30,922	15.2	232	18.7
Agricultural Loans	2,217	1.1	13	1.1
Consumer Loans	6,219	3.1	426	34.3
Other Loans	2,526	1.2	4	0.3
Total Loans	203,828	100.0	1241	100.0
<i>Source: Bank Data 01/1/2022 – 12/31/2022</i>				

Considering the dollar volume and number of loans originated and products commonly reviewed for CRA, examiners determined the bank's major product lines consist of Commercial and Commercial Real Estate loans at 46.6 percent by dollar and 26.5 percent by number followed by 1-4 Family and Multi-Family loans at 19.9 percent by dollar and 22.6 percent by number. Bank records indicate that the lending focus and product mix remained generally consistent throughout the evaluation period. No other loan types, including agricultural, farmland, or consumer loans, represent major product lines. Therefore, this evaluation does not include a review of small farm or consumer loans.

For small business lending, this evaluation considered all 2022 originations. As noted in the table above, the bank originated 329 commercial and commercial real estate loans totaling \$95.0 million, of which 310 loans totaling \$46.4 million met the definition of small business. Examiners evaluated all 310 small business loans under the AA concentration performance factor and used all 184 loans totaling \$21.2 million originated in the AAs for the geographic distribution analysis. For the borrower profile analysis, examiners selected sample of 49 loans totaling \$6.9 million originated in the AAs. D&B data for 2022 provided the standard of comparison for the small business lending.

This evaluation considered all home mortgage loans reported on the bank's 2020, 2021, and 2022 Home Mortgage Disclosure Act (HMDA) Loan Application Registers (LARs). Examiners reviewed the following reported home mortgage loans for this evaluation.

- 2020: 258 home mortgage loans totaling \$48.0 million
- 2021: 155 home mortgage loans totaling \$28.8 million
- 2022: 139 home mortgage loans totaling \$21.9 million

This evaluation presents performance for all three years for the AA concentration performance factor and presents 2021 home mortgage loan data for the other factors since it is the most recent year for which aggregate data exists. Home mortgage lending demonstrated a decreasing trend during the review period; however, it did not affect applicable conclusions or ratings. Aggregate HMDA data for 2021 home mortgage loans and demographic data based on the 2015 American Community Survey (ACS) provided the standard of comparison for the home mortgage lending.

Examiners considered the universe of home mortgage and small business loans when determining loan product weighting as well as management's stated business strategy when weighing each product's effect on overall conclusions for applicable performance factors. Examiners compared the home mortgage loans originated in 2021 to small business loans originated in 2022 and, considering dollar volume and number volume equally, small business loans received greater weight than home mortgage loans.

The performance evaluation presents the number and dollar volume of small business and home mortgage loans; however, examiners focused on performance by number of loans because the number of loans provides a better indicator of the number of businesses and individuals served.

For the Community Development Test, bank management provided data on community development loans, qualified investments, and community development services since the prior evaluation for consideration. The scope of this evaluation also considered all prior period qualified investments purchased prior to the previous evaluation and still outstanding as of this evaluation's date.

CONCLUSIONS ON PERFORMANCE CRITERIA

LENDING TEST

First Bank demonstrated a satisfactory record regarding the Lending Test. Reasonable records for the loan-to-deposit (LTD) ratio, geographic distribution, and borrower profile primarily support this. In addition, the bank originated a majority of loans inside the AAs further supporting this conclusion.

Loan-to-Deposit Ratio

The LTD ratio is reasonable (considering seasonal variations and taking into account lending related activities) given the institution's size, financial condition, and AA credit needs. The average net LTD ratio was 67.3 percent over the past 13 calendar quarters from March 31, 2020, to March 31, 2023. The LTD ratio ranged from a high of 82.0 percent as of March 31, 2020, to a low of 58.2 percent as of March 31, 2022 and demonstrated a decreasing trend. According to bank management, the decreasing trend stems from a change in lending focus from large national customers to more community based lending in the local areas.

Examiners identified and listed comparable institutions operating in a similar area and reflecting comparable lending emphases in the following table. Although the bank's average net LTD ratio trails comparable banks, it falls within range, supporting reasonable performance.

Loan-to-Deposit (LTD) Ratio Comparison		
Bank	Total Assets as of 03/31/2023 (\$000s)	Average Net LTD Ratio (%)
First Bank, McComb, MS	583,655	67.3
Citizens Bank, Columbia, MS	446,667	72.5
Peoples Bank, Mendenhall, MS	438,557	87.1
PriorityOne Bank, Magee, MS	1,031,026	84.2
<i>Source: Reports of Condition and Income 03/31/2020 – 03/31/2022</i>		

Assessment Area Concentration

A majority of loans and other lending related activities are in the institution's AAs. The following table illustrates that the bank originated a majority of home mortgage and small business loans by number within the AAs. The analysis further shows that the bank also originated a majority of home mortgage loans, by dollar, in the AAs. Although a majority of small business loans, by dollar, originated outside of the designated AAs, this did not adversely affect the overall conclusion for this criterion.

Lending Inside and Outside of the Assessment Area										
	Number of Loans					Dollar Amount of Loans \$(000s)				
Loan Category	Inside		Outside		Total	Inside		Outside		Total
	#	%	#	%	#	\$	%	\$	%	\$(000s)
Small Business	184	59.4	126	40.6	310	21,221	45.7	25,204	54.3	46,425
Home Mortgage										
2020	185	71.7	73	28.3	258	34,478	71.8	13,552	28.2	48,030
2021	118	76.1	37	23.9	155	17,730	61.5	11,106	38.5	28,836
2022	104	74.8	35	25.2	139	14,732	67.4	7,133	32.6	21,865
Subtotal	407	73.7	145	26.3	552	66,940	67.8	31,791	32.2	98,731
<i>Source: Bank Data; Due to rounding, totals may not equal 100.0%</i>										

Geographic Distribution

The geographic distribution of loans reflects reasonable dispersion throughout the AAs. The bank demonstrated consistent performance throughout the AAs, supporting this conclusion.

Borrower Profile

The distribution of borrowers, given the demographics of the AAs, reflects reasonable penetration among businesses of different sizes and individuals of different income levels (including low- and moderate-income). The bank demonstrated consistent performance throughout the AAs, supporting this conclusion.

COVID-19 Pandemic Lending Activities

The bank received favorable CRA consideration for its willingness to offer various flexible options for borrowers impacted financially by the COVID-19 pandemic. The bank assisted small business borrowers with Paycheck Protection Program (PPP) loans through the SBA. The SBA offered the PPP to provide a direct incentive for small businesses to keep their workers on the payroll. The bank originated 3,674 PPP loans totaling approximately \$10.4 million during the evaluation period.

Response to Complaints

The institution has not received any CRA-related complaints since the previous evaluation; therefore, this criterion did not affect the Lending Test rating.

COMMUNITY DEVELOPMENT TEST

The bank's community development performance demonstrates adequate responsiveness to community development needs in all of the bank's AAs through community development loans, qualified investments, and community development services, as appropriate, considering the institution's capacity and the need and availability of such opportunities in the institution's AAs.

Community Development Loans

The following table shows that during the review period, the bank granted 23 community development loans totaling approximately \$20.5 million. This level of community development lending represents 3.4 percent of the average total assets of \$597.0 million and 5.8 percent of its average net loans of \$352.9 million, reflecting adequate performance. This performance demonstrates a decrease from the 5.2 percent of average assets and 6.5 percent of average net loans recorded at the prior evaluation. The community development loans demonstrated responsiveness to the AAs needs by providing loans to municipalities and business that revitalize or stabilize low- and moderate-income census tracts and middle-income distressed census tracts. The following table illustrates the community development loans by year and purpose.

Community Development Lending										
Activity Year	Affordable Housing		Community Services		Economic Development		Revitalize or Stabilize		Totals

Total	7	4,586	4	441	1	949	11	14,568	23	20,544
<i>Source: Bank Data</i>										

Qualified Investments

The following table shows that the bank made use of 43 qualified investments, grants, and donations totaling approximately \$1.4 million. This dollar volume represents 0.2 percent of average total assets of \$597.0 million and 1.5 percent of average total securities of \$95.7 million, reflecting poor performance. It also represents a decline from the 0.4 percent of average total assets and the 7.1 percent of average securities noted at the prior evaluation. Furthermore, the level of community development investments decreased from \$2.3 million qualified at the previous evaluation, while average total securities increased \$62.2 million from the \$33.5 million. A majority of the qualified investments revitalized or stabilized low- and moderate-income areas or middle-income distressed areas demonstrating some responsiveness to identified AA needs.

The following point discusses the bank's qualified investments in the broader regional area:

- **Revitalize or Stabilize:** The bank invested \$355 thousand in a school district in a neighboring area that will support construction and repairs to a high school where a majority of the students qualify as economically disadvantaged.

Community Development Services

The following table shows that the bank provided 223 community development service hours since the prior evaluation, which reflects an adequate level of service. All of the services involved bank employees using their financial or technical expertise to benefit organizations or projects with a primary purpose consistent with community development. The previous examination reported 159 instances of community services and this inconsistency of reporting format hindered a comprehensive analysis of the bank's progression since the previous examination.

Community Development Services

The following table shows First Bank’s availability of services through branches and ATMs. Although the bank does not have any branches or ATMs within the low-income geographies, in the moderate-income geographies the level of branches and ATMs by percentage is significantly higher than the percentage of population and census tracts in that income category, reflecting favorable availability of services. Furthermore, eight of the branches located in middle-income tracts operate in tracts designated as distressed or underserved. Lastly, First Bank offers alternative delivery systems available throughout the AAs, such as online banking with bill pay and mobile banking.

Branch and ATM Distribution by Geography Income Level

Total	92	100.0	351,492	100.0	14	100.0	14	100.0
<i>Source: 2015 ACS Data; Bank Data</i>								

During the COVID-19 pandemic, the bank offered various payment deferral options to its commercial and consumer loan customers during the evaluation period and provided 289 payment deferrals, extensions, and payment modifications totaling over \$176.9 thousand for customers impacted financially by the pandemic.

DISCRIMINATORY OR OTHER ILLEGAL CREDIT PRACTICES REVIEW

The bank’s compliance with the laws relating to discrimination and other illegal credit practices was reviewed, including the Fair Housing Act and the Equal Credit Opportunity Act. Examiners did not identify any discriminatory or other illegal credit practices.

MISSISSIPPI NON-MSA ASSESSMENT AREA – Full-Scope Review

DESCRIPTION OF INSTITUTION’S OPERATIONS IN MISSISSIPPI NON-MSA ASSESSMENT AREA

The Mississippi Non-MSA AA includes all census tracts in Amite, Lawrence, Lincoln, and Pike Counties. This AA contains 28 census tracts with the following income designations: 1 low-, 7 moderate-, 15 middle-, and 4 upper-income. Additionally, one tract does not maintain an income designation. The Federal Emergency Management Agency (FEMA) declared this area as a major disaster area due to the following: 1) the COVID-19 Pandemic in April 2020; 2) Severe Storms, Tornadoes, Straight-Line Winds, and Flooding in April and July 2020; 3) Severe Winter Storms in May 2021; and 4) Hurricane Ida in October 2021. Lastly, the FFIEC designated 12 of the middle-income census tracts as distressed (due to poverty) or underserved.

Economic and Demographic Data

The following table presents demographic data based on the 2015 American Community Survey (ACS), which serves as contextual purpose for the home mortgage review. Of note, the aforementioned census tract numbers vary from the information below, as they reflect the current 2020 U.S. Census information. The census update resulted in the inclusion of eight additional census tracts for the Mississippi Non-MSA AA.

Demographic Information of the Assessment Area Mississippi Non-MSA						
Demographic Characteristics	#	Low % of #	Moderate % of #	Middle % of #	Upper % of #	NA* % of #
Geographies (Census Tracts)	20	0.0	25.0	70.0	5.0	0.0

Median Family Income Non-MSAs - MS		\$43,897	Median Housing Value			\$84,741
			Median Gross Rent			\$632
			Families Below Poverty Level			22.0%
Source: 2015 ACS and 2021 D&B Data; Due to rounding, totals may not equal 100.0%; (*) The NA category consists of geographies that have not been assigned an income classification.						

According to 2022 D&B Data, 84.6 percent of the AA’s businesses have gross annual revenues (GAR) \$1.0 million or less and 59.7 percent of businesses have four or fewer employees.

The following table shows the calculated income ranges based on the 2021 Federal Financial Institutions Examination Council (FFIEC)-estimated median family income of \$51,400 for the Mississippi Non-MSA AA.

Median Family Income Ranges				
Median Family Incomes	Low <50%	Moderate 50% to <80%	Middle 80% to <120%	Upper ≥120%
MS NA Median Family Income (99999)				
2021 (\$51,400)	<\$25,700	\$25,700 to <\$41,120	\$41,120 to <\$61,680	≥\$61,680
<i>Source: FFIEC</i>				

According to local data, major employers include Sanders Farms, Georgia Pacific LLC, Sam Mabry Lumber Company and the school districts for Amite, Pike, Lawrence, and Lincoln counties.

The following table shows the unemployment rate for the counties within the Mississippi Non-MSA AA as of May 2023. The unemployment rate for all counties is generally consistent and slightly higher than the state and national levels, except for Lincoln County where the rate is slightly lower than both the state and national rate.

Unemployment Rates – May 2023	
Area	%
Amite	3.8
Lawrence	3.4
Lincoln	2.7
Pike	3.6
State	3.0
National Average	3.4
<i>Source: Bureau of Labor Statistics</i>	

Competition

First Bank operates in a competitive market in the Mississippi Non-MSA AA. According to the FDIC’s Deposit Market Share Report as of June 30, 2022, the Mississippi Non-MSA AA contained 10 financial institutions that operated 37 full-service branches. Of these institutions, First Bank ranked 2nd with 21.7 percent of the deposit market share.

In 2021, 199 institutions reported 4,193 home mortgage loans totaling \$5.6 million with First Bank ranking 10th with 1.8 percent by dollar volume. The top three institution comprise 20.3 percent by dollar volume. First Bank is not required to collect or report small business loans, however in 2021, 71 institutions reported \$95.9 million in small business loans. The top three institutions account for 65.1 percent of the total market shares by dollar volume, which further supports the high level of competition for this AA.

Community Contacts

As part of the evaluation process, examiners contact third parties active in the AA to assist in identifying the area's credit needs. This information helps determine whether local financial institutions are responsive to those needs and shows what credit opportunities are available.

Examiners used an existing community contact to help assess the current economic conditions, community credit needs, and potential opportunities for bank involvement in this area. The contact noted that the current economic conditions improved, post COVID-19, evidenced by the declining unemployment rates. The contact referenced a significant need in the area for small business loans, particularly for start-up businesses and for expansion of existing businesses. Additionally, the contact identified a demand for workforce training and financial literacy courses in the area.

Credit and Community Development Needs and Opportunities

Considering information from the community contact, bank management, and demographic and economic data, examiners concluded that small business and home mortgage loans represent the AA's primary credit needs. The previously described FEMA Major Disaster Declarations indicate a need for revitalization and stabilization of the designated disaster areas. In addition, the area's community development needs include economic development and community services targeted to low- and moderate-income individuals.

CONCLUSIONS ON PERFORMANCE CRITERIA IN MISSISSIPPI NON-MSA ASSESSMENT AREA

LENDING TEST

First Bank demonstrated a satisfactory Lending Test record in the Mississippi Non-MSA AA. Reasonable performance regarding geographic distribution and borrower profile support this conclusion.

Geographic Distribution

The geographic distribution of loans reflects reasonable dispersion throughout the Mississippi Non-MSA AA. The reasonable lending performances for small business and home mortgage loans support this conclusion.

Small Business Loans

The geographic distribution of small business loans reflects reasonable dispersion throughout the Mississippi Non-MSA AA. The following table shows that First Bank's lending in low- and moderate-income census tracts falls within a reasonable range of demographic data at 0.6 percentage points below in low-income census tracts and 4.4 percentage points below in moderate-income census tracts.

Geographic Distribution of Small Business Loans Mississippi Non-MSA					
Tract Income Level	% of Businesses	#	%	\$(000s)	%
Low	2.7	3	2.1	156	1.0
Moderate	24.7	29	20.3	4,248	27.3
Middle	52.0	82	57.3	7,344	47.2

<i>Source: 2022 D&B Data; Bank Data; Due to rounding, totals may not equal 100.0%</i>					

Home Mortgage Loans

The geographic distribution of home mortgage loans reflects reasonable dispersion throughout the Mississippi Non-MSA AA. Since the AA does not contain any low-income census tracts for the year reviewed, the moderate-income census tracts received all consideration. First Bank's level of performance surpasses aggregate data by 10.4 percentage points, demonstrating a reasonable level of performance.

Geographic Distribution of Home Mortgage Loans Mississippi Non-MSA

Borrower Profile

The distribution of borrowers, given the demographics of the AA, reflects reasonable penetration among businesses of different sizes and individuals of different income levels, including low- and moderate-income individuals. Reasonable small business and home mortgage performances support this conclusion.

Small Business Loans

The distribution of borrowers reflects reasonable penetration among businesses of different sizes in the Mississippi Non-MSA AA. The following table indicates that the bank originates nearly three out of four loans to businesses reporting GARs of \$1 million or less, reflecting reasonable

performance. This level trails demographic data by only 12.6 percentage points, further supporting reasonable performance.

Detailed Distribution of Small Business Loans by Gross Annual Revenues Mississippi Non-MSA					
Gross Revenue Level	% of Businesses	#	%	\$(000s)	%
< \$100,000	48.3	12	37.5	2,050	39.1

Home Mortgage Loans

The distribution to borrowers of varying income for home mortgage loans reflects reasonable dispersion throughout the Mississippi Non-MSA AA. First Bank's lending to low-income borrowers stands consistent with aggregate data, while lending levels to moderate-income borrowers, trails aggregate data by 6.0 percentages points. Despite this difference, the lending to low- and moderate-income borrowers demonstrate reasonable performance.

Distribution of Home Mortgage Loans by Borrower Income Level Mississippi Non-MSA

COMMUNITY DEVELOPMENT TEST

The bank's community development performance demonstrates adequate responsiveness to community development needs in the Mississippi Non-MSA AA through community development loans, qualified investments, and community development services, as appropriate, considering the institution's capacity and the need and availability of such opportunities in the institution's AA.

Community Development Loans

The following table shows that since the prior evaluation the bank granted 18 community development loans totaling approximately \$16.3 million in the Mississippi Non-MSA AA. This dollar volume accounts for 79.3 percent of the total adequate level of community development lending during this evaluation, and a decrease from approximately \$20.0 million noted during the last performance evaluation. This level of community development lending lies above the 36.7 percent of overall lending attributed to this AA. A large portion of the bank's community development loans helped to revitalize or stabilize designated disaster areas and distressed or underserved census tract, which represents the bank's responsiveness to community development needs in the Mississippi Non-MSA AA. The following table illustrates the community development loans by year and purpose in the Mississippi Non-MSA AA.

Community Development Lending										
Activity Year	Affordable Housing		Community Services		Economic Development		Revitalize or Stabilize		Totals	
	#	\$(000s)	#	\$(000s)	#	\$(000s)	#	\$(000s)	#	\$(000s)

Source: Bank Data										

The following is a notable community development loan in the Mississippi Non-MSA AA:

- ***Revitalize or Stabilize:*** In 2021, the bank originated a \$7.6 million loan in a distressed census tract within the Mississippi Non-MSA AA. The loan financed revitalization efforts at a local mall, which helped attract new businesses. The efforts also helped bring new businesses to the surrounding area, creating additional employment opportunities within the community.

Qualified Investments

The following table shows that the bank provided 40 qualified donations totaling approximately \$44 thousand. Although the dollar volume represents an increase from the \$33 thousand donated at the last evaluation, it only equates to 0.3 percent of the total poor level of qualified investments despite this area generating 88.3 percent of the deposits for the bank. Similar to the performance at the last evaluation, the bank did not maintain any qualified investments that benefitted this AA. The qualified grants and donations primarily benefitted community services targeted to low- and moderate-income individuals. This represents limited responsiveness to community development needs in the Mississippi Non-MSA AA. The following table illustrates the qualified investments by year and purpose in the Mississippi Non-MSA AA.

Qualified Investments										
Activity Year	Affordable Housing		Community Services		Economic Development		Revitalize or Stabilize		Totals

<i>Source: Bank Data</i>										

The following lists a notable qualified investment in the Mississippi Non-MSA AA:

- **Community Service:** In 2021, the bank donated \$5,000 to a local high school that provides educational and other services to the population in a distressed census tract.

Community Development Services

During the evaluation period, bank employees provided 194 hours of financial expertise or technical assistance to various community development related organizations and people in the Mississippi Non-MSA AA. These community development services benefited community service organizations with missions targeted to low- and moderate-income individuals. The efforts demonstrate the bank's responsiveness in addressing an identified community development need.

The following table illustrates the community development services by year and purpose in the Mississippi Non-MSA AA.

Community Development Services					
Activity Year	Affordable Housing	Community Services	Economic Development	Revitalize or Stabilize	Totals
	#	#	#	#	#
2020	0	45	0	8	53
2021	0	51	0	0	51

YTD 2023	0	8	0	2	10
Total	0	182	0	12	194
<i>Source: Bank Data</i>					

The following is a notable community development service in the Mississippi Non-MSA AA:

- **Community Services:** A bank employee provided financial literacy through an organization that provides a budgeting class targeted towards low- and moderate-income individuals residing in the area.

First Bank's branch and ATMs distribution trails demographic data date in the low- and moderate-income census tracts. However, eight of the bank's branches in the middle-income census tracts reside in tracts designated as distressed due to poverty. Additionally, the bank offers alternative

delivery systems (mobile and online banking) accessible to all customers, including low- and moderate-income individuals. Mobile banking provides a convenient way for customers to deposit checks, check account balances, review recent account activity, transfer funds between accounts, and pay bills.

JACKSON MSA ASSESSMENT AREA – Full-Scope Review

DESCRIPTION OF INSTITUTION’S OPERATIONS IN JACKSON MSA ASSESSMENT AREA

The Jackson MSA AA includes all census tracts in Madison County, one of seven counties within the Jackson, Mississippi MSA. According to the 2020 U.S. Census, this AA contains 26 census tracts consisting of 2 low-, 3 moderate-, 6 middle-, and 15 upper-income. FEMA declared this area as a major disaster area due to the COVID-19 Pandemic in April 2020 and Hurricane Ida in October 2021.

Economic and Demographic Data

The following table presents demographic data table based on the 2015 ACS, which serves as contextual purpose concerning the home mortgage review. The 2020 U.S. Census added five tracts to the area and serves as the contexts for the small business lending review.

Demographic Information of the Assessment Area						
Jackson MSA						
Demographic Characteristics	#	Low % of #	Moderate % of #	Middle % of #	Upper % of #	NA* % of #

Median Family Income MSA - 27140 Jackson, MS MSA		\$55,459	Median Housing Value			\$198,623
			Median Gross Rent			\$900
			Families Below Poverty Level			9.8%
Source: 2015 ACS and 2021 D&B Data. Due to rounding, totals may not equal 100.0%. (*) The NA category consists of geographies that have not been assigned an income classification.						

According to 2022 D&B Data, 87.9 percent of the AA's businesses have gross annual revenue \$1.0 million or less and 62.7 percent of businesses have four or fewer employees.

The following table shows the calculated income ranges based on the 2021 FFIEC-estimated median family income of \$66,100 for the Jackson MSA.

Median Family Income Ranges				
Median Family Incomes	Low <50%	Moderate 50% to <80%	Middle 80% to <120%	Upper ≥120%
Jackson, MS MSA Median Family Income (27140)				
2021 (\$66,100)	<\$33,050	\$33,050 to <\$52,880	\$52,880 to <\$79,320	≥\$79,320
Source: FFIEC				

According to Moody's Analytics, major employers include Nissan, Madison County School District, Peco Foods, Yates Services, and C Spire. The unemployment rate as of May 2023 for Madison County of 2.5 percent sits below the state and national rate at 3.0 percent and 3.4 percent respectively.

Competition

First Bank operates in a highly competitive market in the Jackson MSA AA. According to the FDIC's Deposit Market Share Report as of June 30, 2022, the Jackson MSA AA contained 23 financial institutions that operated 53 full-service branches. Of these institutions, First Bank ranked 15th with less than 1.0 percent of the deposit market share.

In 2021, 282 institutions reported 9,417 home mortgage loans totaling \$2.6 billion with First Bank ranking 113th with 0.7 percent by dollar volume. The top three institutions comprise of 23.6 percent by dollar volume. First Bank is not required to collect or report small business loans, however in 2021, 87 institutions reported \$267.8 million in small business loans. The top three institutions accounts for 40 percent of the total market shares by dollar volume, which further supports the high level of competition for this AA.

Community Contacts

As part of the evaluation process, examiners contact third parties active in the AA to assist in identifying the credit needs. This information helps determine local financial institution's responsiveness to these needs and shows available credit and community development opportunities. Examiners used an existing community contact from a local organization aimed at strengthening economic development. The contact noted that affordable housing for low- and moderate-income individuals serves as the primary credit need in this AA. Additionally, the contact indicated a need for bank involvement with start-up loans for small businesses, interim financing, and micro loans.

Credit and Community Development Needs and Opportunities

Considering information obtained from the community contact, bank management, and demographic and economic information, examiners determined that the primary credit needs of the AA include small business and home mortgage loans. With respect to the area's community development needs, demographic data supports the need for projects that provide affordable housing and community services targeted to low- and moderate-income individuals as well as activities that revitalize or stabilize low- and moderate-income tracts and designated disaster areas. As indicated by the economic information, there is also a need for economic development activities to support small businesses within the AA.

CONCLUSIONS ON PERFORMANCE CRITERIA IN JACKSON MS ASSESSMENT AREA

LENDING TEST

First Bank demonstrated a satisfactory Lending Test record in the Jackson MSA AA. Reasonable performance regarding geographic distribution and borrower profile support this conclusion.

Geographic Distribution

The geographic distribution of loans reflects reasonable dispersion throughout the Jackson MSA AA. The reasonable lending performances for both small business and home mortgage loans support this conclusion.

Small Business Loans

The geographic distribution of small business loans reflects reasonable dispersion throughout the Jackson MSA AA. The following table shows that First Bank did not make any loan in the low- and moderate-income census tracts initially reflecting a poor level. However, after considering the high level of competition and the demographics reflecting the percent of businesses at 1.8 percent and 7.4 percent in the respective census tracts, indicative of limited opportunity, the institution's level of lending to low- and moderate-income borrowers reflects a reasonable level.

Geographic Distribution of Small Business Loans Jackson MSA					
Tract Income Level	% of Businesses	#	%	\$(000s)	%
Low	1.8	0	0.0	0	0.0
Moderate	7.4	0	0.0	0	0.0
Middle	22.0	1	12.5	104	18.2
Upper	68.8	7	87.5	466	81.8
Total	100.0	8	100.0	570	100.0
<i>Source: 2022 D&B Data; Bank Data; Due to rounding, totals may not equal 100.0%</i>					

Home Mortgage Loans

The geographic distribution of home mortgage loans reflects reasonable dispersion throughout the Jackson MSA AA. Although First Bank did not originate loans within low- and moderate-income tracts, initially reflective of poor performance, examiners considered the limited opportunity based upon aggregate performance and demographic data in addition to the high level of competition in the area, resulting in a reasonable level of performance. When comparing to aggregate performance, the bank's performance falls 0.4 percentage points lower in low-income tracts and 1.5 percentage points lower in the moderate-income tracts, further supporting reasonable performance.

Geographic Distribution of Home Mortgage Loans Jackson MSA

<i>Source: 2015 ACS; Bank Data, 2021 HMDA Aggregate Data. Due to rounding, totals may not equal 100.0%</i>						

Borrower Profile

The distribution of borrowers reflects, given the demographics of the AA, reasonable penetration among businesses of different sizes and individuals of different income levels, including low- and moderate-income individuals. Reasonable performance regarding small business lending overcomes poor performance regarding home mortgage lending.

Small Business Loans

The distribution of borrowers reflects reasonable penetration among businesses of different sizes in the Jackson MSA AA. The following table indicates First Bank originated one of every two loans to a business with GARs of \$1 million or less, reflecting reasonable performance. Furthermore, a majority of the loans to businesses with revenues under \$1 million or less supported the smallest businesses, those with revenues under \$250 thousand.

Detailed Distribution of Small Business Loans by Gross Annual Revenues Jackson MSA					
Gross Revenue Level	% of Businesses	#	%	\$(000s)	%

Home Mortgage Loans

The distribution of borrowers reflects poor penetration among individuals of different income levels in the Jackson MSA AA. The following table indicates that First Bank did not originate any loans to low- and moderate-income borrowers. For low-income borrowers, the bank's performance falls 2.7 percentage points below aggregate performance. The institution's level of lending to moderate-income borrowers falls 8.7 percentage below aggregate.

Distribution of Home Mortgage Loans by Borrower Income Level Jackson MSA

COMMUNITY DEVELOPMENT TEST

The bank's community development performance demonstrates adequate responsiveness to community development needs in the Jackson MSA AA through community development loans, qualified investments, and community development services, as appropriate, considering the institution's capacity and the need and availability of such opportunities in the institution's AA.

Community Development Loans

The following table shows that since the prior evaluation the bank granted two community development loans totaling approximately \$1.6 million in the Jackson MSA AA. The dollar amount equates to 7.9 percent of the total adequate level of community development loans and a decrease from approximately \$2.1 million noted during the last performance evaluation. This level of lending is on par with the 9.5 percent of overall lending attributed to this AA. The bank's community development loans helped to provide economic development in the area and provide affordable housing, which represents the bank's responsiveness to community development needs in the Jackson MSA AA.

Community Development Lending										
Activity Year	Affordable Housing		Community Services		Economic Development		Revitalize or Stabilize		Totals	
	#	\$(000s)	#	\$(000s)	#	\$(000s)	#	\$(000s)	#	\$(000s)

<i>Source: Bank Data</i>										

The following is a notable community development loan in the Jackson MSA AA:

- **Affordable Housing:** In 2021, the bank originated a \$675 thousand loan to provide affordable housing with the AA. The funds financed a mobile-home park providing 22 mobile homes to low- and moderate-income individuals.

Qualified Investments

The following table shows that the bank purchased one qualified investment for \$509 thousand during the review period. The dollar amount equates to 36.1 percent of the total poor level of qualified investments and a decrease from approximately \$1.4 million noted during the last performance evaluation. The 36.1 percent rises above the 2.6 percent of deposits attributed to this AA. The qualified investments provided revitalization or stabilization within the AA, which represents the bank's responsiveness to community development needs in the Jackson MSA AA. The following table illustrates the qualified investments by year and purpose in the Jackson MSA AA.

Qualified Investments										
Activity Year	Affordable Housing		Community Services		Economic Development		Revitalize or Stabilize		Totals

<i>Source: Bank Data</i>										

The following is a notable qualified investment in the Jackson MSA AA:

- **Revitalize or Stabilize:** In 2021, the bank originated a \$509 thousand investment to a municipality within the AA. The funds financed infrastructure improvements that aid in attracting new and retaining existing residents and businesses in the low- and moderate-income areas.

Community Development Services

During the evaluation period, bank did not provide any hours of financial expertise or technical assistance within the Jackson MSA AA.

Although First Bank does not operate any branches or ATM within low- or moderate-income census tracts, as shown in the following table, the comparable demographic data evidences a relatively small percentage of the population resides in the low- and moderate-income census at 5.8 percent and 10.0 percent respectively. However, First Bank's alternative delivery systems (online and mobile banking) serve all customers, including low- or moderate-income individuals. Mobile banking provides a convenient way for customers to deposit checks, check account balances, review recent account activity, transfer funds between accounts, and pay bills.

HATTIESBURG MSA ASSESSMENT AREA – Limited-Scope Review

DESCRIPTION OF INSTITUTION’S OPERATIONS IN HATTIESBURG MSA ASSESSMENT AREA

The Hattiesburg MSA AA includes all census tracts in Forrest and Lamar Counties, which are part of the Hattiesburg MSA. This AA contains 38 census tracts consisting of 0 low-, 9 moderate-, 13 middle-, and 13 upper-income tracts and 3 tracts with no income designation. FEMA declared this area a major disaster area due to the COVID-19 Pandemic in April 2020 and Hurricane Ida in October 2021.

The following table presents demographic data based on the 2015 ACS, which serves as contextual purpose concerning the home mortgage review. It is important to note that the aforementioned census tract numbers vary from the information below, as they reflect the current 2020 U.S. Census information. This census update resulted in the inclusion of 13 additional census tracts for the Hattiesburg MSA AA.

Demographic Information of the Assessment Area Hattiesburg MSA						
Demographic Characteristics	#	Low % of #	Moderate % of #	Middle % of #	Upper % of #	NA* % of #
Geographies (Census Tracts)	25	16.0	16.0	44.0	24.0	0.0
Population by Geography	135,152	12.8	9.2	44.8	33.2	0.0
Housing Units by Geography	56,683	12.9	10.3	46.4	30.4	0.0
Owner-Occupied Units by Geography	29,884	4.5	8.6	47.0	39.9	0.0
Occupied Rental Units by Geography	19,964	22.9	12.3	45.5	19.3	0.0
Vacant Units by Geography	6,835	20.4	11.4	46.7	21.5	0.0

Farms by Geography	293	2.0	4.8	46.8	46.4	0.0
Family Distribution by Income Level	33,371	24.2	14.3	19.0	42.5	0.0
Household Distribution by Income Level	49,848	27.1	13.4	15.4	44.1	0.0
Median Family Income MSA - 25620 Hattiesburg, MS MSA		\$52,275	Median Housing Value			\$130,779
			Median Gross Rent			\$771
			Families Below Poverty Level			16.8%
Source: 2015 ACS and 2021 D&B Data; Due to rounding, totals may not equal 100.0%; (*) The NA category consists of geographies that have not been assigned an income classification.						

According to 2022 D&B Data, 84.7 percent of the AA's businesses reported gross annual revenue \$1.0 million or less and 58.1 percent of businesses have four or fewer employees.

The following table shows the calculated income ranges based on the 2021 FFIEC-estimated median family income of \$60,000 for the Hattiesburg MSA AA.

Median Family Income Ranges				
Median Family Incomes	Low <50%	Moderate 50% to <80%	Middle 80% to <120%	Upper ≥120%
Hattiesburg, MS MSA Median Family Income (25620)				
2021 (\$60,000)	<\$30,000	\$30,000 to <\$48,000	\$48,000 to <\$72,000	≥\$72,000
Source: FFIEC				

According to Moody's Analytics major employers includes Marshall Durbin Poultry, Georgia Pacific, Leaf River Cellulose, Camp Shelby, Forrest General Hospital, Lamar County School District, and University of Southern Mississippi. The unemployment rates as of May 2023 for Lamar and Forrest counties at 2.3 and 2.9 percent, sit below the state and national rates of 3.0 percent and 3.4 percent, respectively.

CONCLUSIONS ON PERFORMANCE CRITERIA IN IN HATTIESBURG MSA ASSESSMENT AREA

LENDING TEST

The institution's lending performance in the Hattiesburg MSA AA is consistent with the institution's lending performance in the AAs reviewed using full-scope examination procedures.

COMMUNITY DEVELOPMENT TEST

The institution's community development performance in the Hattiesburg MSA AA is consistent with the institution's community development performance in the AAs reviewed using full-scope examination procedures.

APPENDICES

INTERMEDIATE SMALL BANK PERFORMANCE CRITERIA

Lending Test

The Lending Test evaluates the bank's record of helping to meet the credit needs of its assessment area(s) by considering the following criteria:

- 1) The bank's loan-to-deposit ratio, adjusted for seasonal variation, and, as appropriate, other lending-related activities, such as loan originations for sale to the secondary markets, community development loans, or qualified investments;
- 2) The percentage of loans, and as appropriate, other lending-related activities located in the bank's assessment area(s);
- 3) The geographic distribution of the bank's loans;
- 4) The bank's record of lending to and, as appropriate, engaging in other lending-related activities for borrowers of different income levels and businesses and farms of different sizes; and
- 5) The bank's record of taking action, if warranted, in response to written complaints about its performance in helping to meet credit needs in its assessment area(s).

Community Development Test

The Community Development Test considers the following criteria:

- 1) The number and amount of community development loans;
- 2) The number and amount of qualified investments;
- 3) The extent to which the bank provides community development services; and
- 4) The bank's responsiveness through such activities to community development lending, investment, and service needs.

GLOSSARY

Aggregate Lending: The number of loans originated and purchased by all reporting lenders in specified income categories as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

American Community Survey (ACS): A nationwide United States Census survey that produces demographic, social, housing, and economic estimates in the form of five year estimates based on population thresholds.

Area Median Income: The median family income for the MSA, if a person or geography is located in an MSA; or the statewide nonmetropolitan median family income, if a person or geography is located outside an MSA.

Assessment Area: A geographic area delineated by the bank under the requirements of the Community Reinvestment Act.

Census Tract: A small, relatively permanent statistical subdivision of a county or equivalent entity. The primary purpose of census tracts is to provide a stable set of geographic units for the presentation of statistical data. Census tracts generally have a population size between 1,200 and 8,000 people, with an optimum size of 4,000 people. Census tract boundaries generally follow visible and identifiable features, but they may follow nonvisible legal boundaries in some instances. State and county boundaries always are census tract boundaries.

Combined Statistical Area (CSA): A combination of several adjacent metropolitan statistical areas or micropolitan statistical areas or a mix of the two, which are linked by economic ties.

Community Development: For loans, investments, and services to qualify as community development activities, their primary purpose must:

- (1) Support affordable housing for low- and moderate-income individuals;
- (2) Target community services toward low- and moderate-income individuals;
- (3) Promote economic development by financing small businesses or farms; or
- (4) Provide activities that revitalize or stabilize low- and moderate-income geographies, designated disaster areas, or distressed or underserved nonmetropolitan middle-income geographies.

Community Development Corporation (CDC): A CDC allows banks and holding companies to make equity type of investments in community development projects. Institution CDCs can develop innovative debt instruments or provide near-equity investments tailored to the development needs of the community. Institution CDCs are also tailored to their financial and marketing needs. A CDC may purchase, own, rehabilitate, construct, manage, and sell real property. Also, it may make equity or debt investments in development projects and in local businesses. The CDC activities are expected to directly benefit low- and moderate-income groups, and the investment dollars should not represent an undue risk on the banking organization.

Community Development Financial Institutions (CDFIs): CDFIs are private intermediaries (either for profit or nonprofit) with community development as their primary mission. A CDFI facilitates the flow of lending and investment capital into distressed communities and to individuals who have been unable to take advantage of the services offered by traditional financial institutions. Some basic types of CDFIs include community development banks, community development loan funds, community development credit unions, micro enterprise funds, and community development venture capital funds.

A certified CDFI must meet eligibility requirements. These requirements include the following:

- Having a primary mission of promoting community development;
- Serving an investment area or target population;
- Providing development services;
- Maintaining accountability to residents of its investment area or targeted population through representation on its governing board of directors, or by other means;
- Not constituting an agency or instrumentality of the United States, of any state or political subdivision of a state.

Community Development Loan: A loan that:

- (1) Has as its primary purpose community development; and
- (2) Except in the case of a wholesale or limited purpose institution:
 - (i) Has not been reported or collected by the institution or an affiliate for consideration in the institution's assessment area as a home mortgage, small business, small farm, or consumer loan, unless it is a multifamily dwelling loan (as described in Appendix A to Part 203 of this title); and
 - (ii) Benefits the institution's assessment area(s) or a broader statewide or regional area including the institution's assessment area(s).

Community Development Service: A service that:

- (1) Has as its primary purpose community development;
- (2) Is related to the provision of financial services; and
- (3) Has not been considered in the evaluation of the institution's retail banking services under § 345.24(d).

Consumer Loan(s): A loan(s) to one or more individuals for household, family, or other personal expenditures. A consumer loan does not include a home mortgage, small business, or small farm loan. This definition includes the following categories: motor vehicle loans, credit card loans, home equity loans, other secured consumer loans, and other unsecured consumer loans.

Core Based Statistical Area (CBSA): The county or counties or equivalent entities associated with at least one core (urbanized area or urban cluster) of at least 10,000 population, plus adjacent counties having a high degree of social and economic integration with the core as measured through commuting ties with the counties associated with the core. Metropolitan and Micropolitan Statistical Areas are the two categories of CBSAs.

Distressed Middle-Income Nonmetropolitan Geographies: A nonmetropolitan middle-income geography will be designated as distressed if it is in a county that meets one or more of the following triggers:

- (1) An unemployment rate of at least 1.5 times the national average;
- (2) A poverty rate of 20 percent or more; or
- (3) A population loss of 10 percent or more between the previous and most recent decennial census or a net migration loss of 5 percent or more over the 5-year period preceding the most recent census.

Family: Includes a householder and one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption. The number of family households always equals the number of families; however, a family household may also include non-relatives living with the family. Families are classified by type as either a married-couple family or other family. Other family is further classified into “male householder” (a family with a male householder and no wife present) or “female householder” (a family with a female householder and no husband present).

FFIEC-Estimated Income Data: The Federal Financial Institutions Examination Council (FFIEC) issues annual estimates which update median family income from the metropolitan and nonmetropolitan areas. The FFIEC uses American Community Survey data and factors in information from other sources to arrive at an annual estimate that more closely reflects current economic conditions.

Full-Scope Review: A full-scope review is accomplished when examiners complete all applicable interagency examination procedures for an assessment area. Performance under applicable tests is analyzed considering performance context, quantitative factors (e.g, geographic distribution, borrower profile, and total number and dollar amount of investments), and qualitative factors (e.g, innovativeness, complexity, and responsiveness).

Geography: A census tract delineated by the United States Bureau of the Census in the most recent decennial census.

Home Mortgage Disclosure Act (HMDA): The statute that requires certain mortgage lenders that do business or have banking offices in a metropolitan statistical area to file annual summary reports of their mortgage lending activity. The reports include such data as the race, gender, and the income of applicants; the amount of loan requested; and the disposition of the application (approved, denied, and withdrawn).

Home Mortgage Loans: Includes closed-end mortgage loans or open-end line of credits as defined in the HMDA regulation that are not an excluded transaction per the HMDA regulation.

Housing Unit: Includes a house, an apartment, a mobile home, a group of rooms, or a single room that is occupied as separate living quarters.

Limited-Scope Review: A limited scope review is accomplished when examiners do not complete all applicable interagency examination procedures for an assessment area.

Performance under applicable tests is often analyzed using only quantitative factors (e.g, geographic distribution, borrower profile, total number and dollar amount of investments, and branch distribution).

Low-Income: Individual income that is less than 50 percent of the area median income, or a median family income that is less than 50 percent in the case of a geography.

Low Income Housing Tax Credit: The Low-Income Housing Tax Credit Program is a housing program contained within the Internal Revenue Code of 1986, as amended. It is administered by the U.S. Department of the Treasury and the Internal Revenue Service. The U.S. Treasury Department distributes low-income housing tax credits to housing credit agencies through the Internal Revenue Service. The housing agencies allocate tax credits on a competitive basis.

Developers who acquire, rehabilitate, or construct low-income rental housing may keep their tax credits. Or, they may sell them to corporations or investor groups, who, as owners of these properties, will be able to reduce their own federal tax payments. The credit can be claimed annually for ten consecutive years. For a project to be eligible, the developer must set aside a specific percentage of units for occupancy by low-income residents. The set-aside requirement remains throughout the compliance period, usually 30 years.

Market Share: The number of loans originated and purchased by the institution as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

Median Income: The median income divides the income distribution into two equal parts, one having incomes above the median and other having incomes below the median.

Metropolitan Division (MD): A county or group of counties within a CBSA that contain(s) an urbanized area with a population of at least 2.5 million. A MD is one or more main/secondary counties representing an employment center or centers, plus adjacent counties associated with the main/secondary county or counties through commuting ties.

Metropolitan Statistical Area (MSA): CBSA associated with at least one urbanized area having a population of at least 50,000. The MSA comprises the central county or counties or equivalent entities containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.

Middle-Income: Individual income that is at least 80 percent and less than 120 percent of the area median income, or a median family income that is at least 80 and less than 120 percent in the case of a geography.

Moderate-Income: Individual income that is at least 50 percent and less than 80 percent of the area median income, or a median family income that is at least 50 and less than 80 percent in the case of a geography.

Multi-family: Refers to a residential structure that contains five or more units.

Nonmetropolitan Area (also known as **non-MSA**): All areas outside of metropolitan areas. The definition of nonmetropolitan area is not consistent with the definition of rural areas. Urban and rural classifications cut across the other hierarchies. For example, there is generally urban and rural territory within metropolitan and nonmetropolitan areas.

Owner-Occupied Units: Includes units occupied by the owner or co-owner, even if the unit has not been fully paid for or is mortgaged.

Qualified Investment: A lawful investment, deposit, membership share, or grant that has as its primary purpose community development.

Rated Area: A rated area is a state or multistate metropolitan area. For an institution with domestic branches in only one state, the institution's CRA rating would be the state rating. If an institution maintains domestic branches in more than one state, the institution will receive a rating for each state in which those branches are located. If an institution maintains domestic branches in two or more states within a multistate metropolitan area, the institution will receive a rating for the multistate metropolitan area.

Rural Area: Territories, populations, and housing units that are not classified as urban.

Small Business Investment Company (SBIC): SBICs are privately-owned investment companies which are licensed and regulated by the Small Business Administration (SBA). SBICs provide long-term loans and/or venture capital to small firms. Because money for venture or risk investments is difficult for small firms to obtain, SBA provides assistance to SBICs to stimulate and supplement the flow of private equity and long-term loan funds to small companies. Venture capitalists participate in the SBIC program to supplement their own private capital with funds borrowed at favorable rates through SBA's guarantee of SBIC debentures. These SBIC debentures are then sold to private investors. An SBIC's success is linked to the growth and profitability of the companies that it finances. Therefore, some SBICs primarily assist businesses with significant growth potential, such as new firms in innovative industries. SBICs finance small firms by providing straight loans and/or equity-type investments. This kind of financing gives them partial ownership of those businesses and the possibility of sharing in the companies' profits as they grow and prosper.

Small Business Loan: A loan included in "loans to small businesses" as defined in the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$1 million or less and are either secured by nonfarm nonresidential properties or are classified as commercial and industrial loans.

Small Farm Loan: A loan included in "loans to small farms" as defined in the instructions for preparation of the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$500,000 or less and are either secured by farmland, including farm residential and other improvements, or are classified as loans to finance agricultural production and other loans to farmers.

Underserved Middle-Income Nonmetropolitan Geographies: A nonmetropolitan middle-income geography will be designated as underserved if it meets criteria for population size, density, and dispersion indicating the area's population is sufficiently small, thin, and distant from a population center that the tract is likely to have difficulty financing the fixed costs of meeting essential community needs.

Upper-Income: Individual income that is 120 percent or more of the area median income, or a median family income that is 120 percent or more in the case of a geography.

Urban Area: All territories, populations, and housing units in urbanized areas and in places of 2,500 or more persons outside urbanized areas. More specifically, "urban" consists of territory, persons, and housing units in places of 2,500 or more persons incorporated as cities, villages, boroughs (except in Alaska and New York), and towns (except in the New England states, New York, and Wisconsin).

"Urban" excludes the rural portions of "extended cities"; census designated place of 2,500 or more persons; and other territory, incorporated or unincorporated, including in urbanized areas.

Home Mortgage Disclosure Act (HMDA) Notice)

The HMDA data about our residential mortgage lending are available online for review. The data show geographic distribution of loans and applications; ethnicity, race, sex, age, and income of applicants and borrowers; and information about loan approvals and denials. The data are available online at the Consumer Financial Protection Bureau's website (www.consumerfinance.gov/hmda). HMDA data for many other financial institutions are also available at this website.

Revision History

DATE	VERSION NO.	CHANGES	OFFICER
03/31/16	1.0	Originated – new format and placed on Intranet	HTP
03/08/17	2.0	Added new Brookhaven Branch to Branch Directory, Updated LTD Ratios, removed Smart Start Checking, removed Mobile Home Loans without R/E, added FI Transfer, added Text Banking.	HTP
06/15/17	2.1	Replaced 2013 CRA Performance Evaluation with 2017 CRA PE	HTP
06/30/17	2.2	Updated Table of Contents, Lincoln County Map, Added Summit ATM, Added New Products (USM, Heroes, Prestige Wealth Mgmt, Payroll Cards) Updated several Census Tract Levels for Branch and ATM Locations <u>Upper to Distressed Middle Income</u> : Delaware Branch & ATM, Edgewood Mall Branch & ATM, Monticello Branch & ATM, Veterans ATM <u>Distressed Middle to Moderate Income</u> : Magnolia Branch & ATM, Osyka Branch <u>Moderate to Low Income</u> : Hattiesburg-Midtown Branch & ATM <u>Moderate to Distressed Middle Income</u> : Liberty Branch & ATM	HTP
03/29/18	3.0	Updated Census Tracts Added ATM at Southwest College Updated Loan-Deposit Ratio Added Hometown Heroes Checking and Go Gold Checking	MHB
04/09/18	3.1	Added Home Mortgage Disclosure Reports	MHB
02/20/20	4.0	Updated Census Tracts, Closed and Opened Branches and ATMs Added Madison & Hattiesburg West Maps Updated Entire Products Pages Updated Loan-to-Deposit Ratios Added Updated Fee Schedule	HTP
06/11/20	4.1	Replaced 2017 CRA Performance Evaluation with 2020 CRA PE	HTP
11/10/20	4.2	Updated HMDA Disclosure Statement	LVB
03/30/21	5.0	(1) Updated Table of Contents. Added “Written Comments from the Public”, “2018 HMDA Disclosure Report” & “Revision History”. (2) Updated Branch Locations and ATM Locations directories. Changed Pike County census tracts 9502, 9504, & 9505 from “distressed due to poverty” to “distressed due to poverty and unemployment”. Changed Lincoln County census tract 9506 from “distressed due to poverty” to “distressed due to unemployment”. Changed Lawrence County census tract 9602 from “distressed due to poverty” to “distressed due to unemployment”. (3) Revised the ATM Locations directory to flag off-site ATMs. Changed the designation of the ATM at 6300 Hwy 98 W to flag it as a deposit-taking ATM. (4) Included a table with descriptions of the assessment areas & changed the assessment area maps. (5) Updated the “Products and Services” and “Other Products & Services” lists. (6) Added the LTD ratios for each quarter of 2020. Removed the LTD ratios for 2017. (7) Replaced the 02/10/2020 fee schedule with the 07/01/2020 fee schedule.	LVB
03/30/22	6.0	(1) Removed branch locations that were opened and closed in 2019 (2) Changed the lobby hours of operation for branches 26 and 28 (Hattiesburg branches)	LVB

		<p>(3) Updated the census demographic data for the Branch Locations and ATM Locations tables. Changed Amite County census tract 9501.00 from “distressed middle-income due to poverty and employment” to “distressed middle-income due to poverty”. Changed Lawrence County census tract 9602.00 from “distressed middle-income due to unemployment and underserved middle-income” to “underserved middle-income”. Changed Lincoln County census tract 9506.00 from “distressed middle-income due to unemployment”.
